1

The data is the all time MLB stolen base leaders. Then all time leader is Rickey Henderson with 1406. It interests me because I'm interested in baseball. It will probably not be useful to me because I'm looking more into the financial side of things but, it could be. I just followed the in class example to do it.

2

The data is from Alpha Vantage I got daily stock prices. It listed the open, high, low, and close prices and then listed the volume of stock. I used jsonlite, httr, and tidyverse.
